Vintech Journey

“Success is not final, failure is not fatal..
It is the courage to continue that counts.”

– Winston Churchill

Vintech Solutions

A Strong System Integrator needs to have a long vision and always be updated with an attitude to face any type of challenges. We came up with a set of solutions that addresses various workload challenges. Following are the solutions that differentiate us from others and make us an emerging service provider:

- Application & Graphics virtualisation
- High performance computing
- SAP HANA offerings
- Cloud Solutions (AWS, Azure, etc.)
- Data availability, management and protection solutions
- AI & ML, GPU Based compute solutions
- Active networking, secure access, firewalls and SDWAN solutions
- Passive networking designing and execution
- Data centre built-up and modernisation, Smart racks and power management
- IoT Solutions offerings
- Collaboration solutions

To cater these solutions, we need to combine various components comprising of hardware and software to give the best possible solutions to our esteemed clients.

We have divided these components in 4 different categories based on their properties:

DEVICES AND PERIPHERALS

ENTERPRISE-IT

VINTECH SERVICES

VINTECH IOT AND AI SOLUTIONS

All these years of providing services and acquiring customers from different sectors has made it easy for us to understand the needs and accordingly, provide the best solutions.
